Summary

Junior web developer with 500 hours of hands-on experience and full-stack projects built with PHP, React, Next.js, and Angular. Brings a background in education, a user-centered perspective, and a strong focus on accessibility and clear communication. Eager to build useful, maintainable, and secure web products.

Skills

- **Frontend:** JavaScript, TypeScript, React, Next.js, Angular, HTML, CSS, Tailwind CSS
- **Backend and Data:** PHP, Laravel, Java, MySQL, MongoDB, eXist-db, REST APIs
- **CMS and Testing:** WordPress, WooCommerce, PHPUnit, JUnit
- **Tools:** Git, GitHub, Linux, VS Code, CI/CD
- **Soft Skills:** problem-solving, teamwork, adaptability, communication, creativity, determination, resilience, and continuous learning

Experience

Web Development Intern, Hormigas en la Nube — Seville, Spain Feb 2026–May 2026 · 500 hours

- Built a complete website from scratch for an early childhood development and senior care center using WordPress, WooCommerce, Elementor, and LearnDash.
- Completed full-site migrations and handled server and database administration tasks.
- Audited websites, resolved client issues, and created tutorial videos that helped clients use the delivered solutions.

Projects

TiraMillas: Tourist Route Platform PHP · MySQL · JavaScript · Leaflet

- Team capstone project featuring account registration and login, three user roles, interactive maps, ad moderation, and CSRF protection.

E-commerce SPA Angular · TypeScript · RxJS

- Built an SPA with a catalog, cart, stock control, admin dashboard, reactive forms, and REST API integration.

Bilingual Personal Portfolio Next.js · React · TypeScript · Tailwind CSS

- Designed and built a responsive portfolio in English and Spanish with accessible navigation, light/dark mode, and SEO metadata.

Libraris: Book Discovery and Reading Tracker Laravel · Inertia · React · TypeScript

- Building a platform from scratch for finding books, tracking reading, and receiving recommendations. Work in progress.
